**We create partnerships and opportunities to help individuals, families, and communities thrive.**

# BASICS OF PUBLIC TRANSPORTATION

## Planning & Scheduling

To be successful when riding on public transportation, it is important to understand how transportation providers operate and take the following into consideration:

- Make sure your address and destination address are within the transportation service area.
- Select a transportation provider that provides the best accommodations based on your needs.
- Most transit services allow passenger care attendants and service animals to ride for free. Notify dispatch when scheduling transportation that you have either a passenger care attendant or service animal that will be accompanying you to your destination.
- Make sure the times you need to be transported are within their service hours.

[GLCAP.ORG/MOBILITYMANAGEMENT](http://GLCAP.ORG/MOBILITYMANAGEMENT)**

- Gain an understanding of what the “pick-up” window is.
- Select a backup plan, document their information, and carry it with you on your trip.
- Pack identification, fare, and a cell phone for your trip.
- Keep valuables with you at all times. Do not wear expensive jewelry or flash money around as this may attract unwanted attention.
- Remember not to give personal information to anyone you do not trust (other than bus drivers and dispatch).
- Pack necessary medicines. Traveling with oxygen is allowed for most providers, but make sure to ask dispatch for the proper procedure before boarding the bus.
- Also remember to carry emergency contact numbers (including emergency medical instructions) with you at all times.
- If you are changing buses, make sure you have connecting route numbers, and arrival and departure times documented and in your hand.

Before you call to schedule a trip, have the following items ready: pen and paper; your starting and ending address; phone number; address of the destination; and appointment time. If you need transportation for dialysis treatment, provide dispatch your arrival, chair, and departure time for treatment.

## Rider Conduct

You will be required to conduct yourself in a respectful manner during the duration of your trip. Drivers for these services have the right to remove unruly passengers, and some may contact law enforcement officials if the behavior becomes dangerous or threatening to the driver or other passengers. Each transportation provider has specific rules to follow. It is very important to review the rider's guidelines before using the transportation provider.

## Pick-up Windows

If applicable, make sure you understand the transportation provider's "pick-up window" policy. A pick-up window means that since transit trips are typically scheduled with a 30 minute pick-up window, the vehicle is considered "on-time" when it arrives either 15 minutes before, or 15 minutes after the scheduled pick-up time. For example, if your pick-up time is 9 a.m., the bus could arrive between 8:45 and 9:15 a.m. and be considered on time. Along with your travel time, make sure to allow for this additional pick-up window time when scheduling appointments.

# Using a Scheduling Form

Transportation providers might use a form such as the example shown below for riders to schedule trips. Be sure to inform your transportation provider of any mobility needs you may have for your ride.

<b>My Name is:</b>			
I need picked up after/ dropped off by ( <i>select one</i> )		(Time and Date)	
I need picked up at:	Full street address:		
I need dropped off at:	Full street address:		
I will (need / not need) a return trip ( <i>select one</i> )			
I need (picked up after / dropped off by) ( <i>select one</i> )		(Time and Date)	
I need picked up at:	Full street address:		
I need dropped off at:	Full street address:		
<b>My confirmation information</b> (Enter times from dispatch below)			
Trip 1 pickup	Between		and
Trip 2 pickup	Between		and

# Talking to Dispatch

- Ask for the vehicle color and number if applicable.
- Repeat date and time back to dispatch.
- Ask how much fare you will need.
- Say if you are an older adult or individual with developmental disabilities as some providers offer a discounted fare.
- Make sure to ask other specific requests to accommodate all of your mobility needs.
- Indicate if you have a mobility device.
- Ask for a rider guide. A rider guide will include the specific routes of the transportation provider.

## Types of Transit

### Demand-response

Transportation service in which a rider calls and schedules an appointment for a ride. Riders may be given a pick-up window, meaning that transportation may arrive several minutes before or after the scheduled appointment.

#### IMPORTANT POINTS:

- Requires scheduling
- May have pick-up window

# Boarding & Exiting

- For demand-response services (in which the passenger calls and schedules a ride), the rider needs to be at the nearest curb stop at the beginning time of the pick up window.
- For fixed-route services (in which a transit provider drives a regular route with regular stops), when the approaching bus shows the route number and destination you want, signal the driver by waving your hand to indicate you would like to board.
- Have fare or pass ready before you board.
- Upon boarding, pay your fare with exact change or swipe your pass.
- Only occupy one seat and rest your bag or briefcase on your lap or under your seat.

## Fixed-route

Transportation service in which the transit provider travels a regular route with routine stops, such as a bus or shuttle route that runs in a loop with multiple stops every hour.

### IMPORTANT POINTS:

- No scheduling required
- Rider should be at stop before transportation arrives

# TRAVEL TRAINING

## About Travel Training

Travel Training teaches independent travel with various approaches and on different modes of transportation. If you would like further assistance with travel education please contact **GLCAP Mobility Management** at **800-775-9767** or visit **[www.glcap.org/mobilitymanagement](http://www.glcap.org/mobilitymanagement)**

Travel Training provides essential travel skills such as:

- Understanding a bus schedule
- Knowing where and how to pay your fare
- Boarding and exiting a vehicle
- Staying alert when taking the bus to your destination
- Utilizing good safety tips and precautions when traveling
- Keeping school, home, work, and travel destination emergency contact information
- Making a transfer
- Knowing how to signal the driver to stop or ask for assistance.

## Travel Advocates

A travel advocate will do the following:

- Obtain permission from parents/guardians for travel education
- Go to a person's home and perform a screening assessment to gauge their mobility needs.
- Assist the rider with discovering the best transportation option based upon the assessment. Map out the best route to and from the travel destinations, consult with parents/guardians, and refer to the local transportation providers in their area.
- Create an individualized travel plan that will provide the rider a step-by-step plan to assist them during their transportation experience.
- Board and ride on the transportation vehicle with the person to monitor their experience.
- Provide additional assistance if needed at rider's discretion.

## Schedule a Training

GLCAP Mobility Management can offer Travel Training in a one-on-one or group setting.

# BICYCLING & WALKING

## Bicycling tips

For older adults, a medium-weight mountain bike or a hybrid may be the most suitable. If you have balance trouble, consider an adult three-wheeler.

- Stay hydrated. Make sure to take a bottle of water with you when you ride.
- Carry an ID and cell phone for emergencies.
- Dress according to weather conditions,
- Wear bright clothes for better visibility.
- If you are going far, let someone know where you're going and when you plan on returning.
- Carry a repair kit that includes a spare tube or patch.
- **Always** wear a helmet!

Since you will be a part of traffic, it is important to follow these traffic rules:

- Obey traffic signs and local laws regarding bicycles.
- Ride on the right, with the flow of traffic and monitor traffic behind you.
- While changing lanes, use hand signals. When approaching a right-turn-only lane, change lanes before the intersection. Before making a left-hand turn, look over your left shoulder.
- If you have to ride on sidewalks, watch for pedestrians, especially near intersections and driveways.
- Always stay at least 3 to 4 feet away from parked cars.
- Make eye contact with motorists, so they acknowledge you're on the road.
- In the morning and at night, use lights on both the front and back of your bike along with reflectors.
