Home Visit Participation – percentage of families in the home-based option completing their weekly home visits for the month. Target set by Grantee (increased from 75% to 80%).

	May	Comments
Home Visit Participation/ Completion Rate	77%	See below.

Participation is being calculated differently beginning in May, so only 1 month is shown. 148/192 visits were completed in May. No visits were cancelled by staff, 4 were no shows or unable to contact, and 24 were cancelled by parents and rescheduled.

Home Visit Duration: LCFC also monitoring length of home visits. Weekly visits should be at least 90 minutes per family. In May, between 63% and over 100% of visits met this requirement across 5 home visitors. (Did not average for May because the supervisor had only 1 family and one home visitor had 3.6 times the required visit duration, skewing the overall numbers.
